HEAVY-DUTY ROLL SHEAR

BUILT FOR THE TOUGHEST MATERIALS

Our Roll Shear is built to tackle the most challenging rolled, bulk, and flat-stock materials. Engineered and manufactured in the USA, this heavy-duty system features a powerful dual-cylinder design, multiple size options, and precision cutting blades up to 132” long.

Ideal for paper, film, carpet, foam, plastic and HDPE PVC, and light non-ferrous metals, this Roll Shear delivers unmatched durability, cycle speed, and throughput.

- Available blade lengths from 48” to 132”
- Opening heights from 30” to 88”
- Dual 7” hydraulic cylinders for enhanced cutting force
- 20 HP standard power unit, with optional 30 HP upgrade
- Floor mounted, pit mounted, or with a bi-directional conveyor
- Cuts paper, plastic film, PVC, fabric, carpet, & light metals
- Optional safety cage and light curtains
- Meets all ANSI, OSHA, ETL, and cETL safety standards
- Manufactured in the USA

MATERIALS APPLICATIONS

PAPER | PLASTIC FILM | CARPET & FABRIC | FOAM | HDPE & PVC | LIGHT NON-FERROUS METALS
